### **Mammoth Freighters Inducts AviaAM Leasing 777-300ER for Freighter Conversion**

**Fort Worth, Texas – October 25<sup>th</sup>, 2023** – Mammoth Freighters LLC (“Mammoth”) is pleased to announce it has inducted the first of six AviaAM Leasing 777-300ER aircraft for freighter conversion. The aircraft (MSN 35299) is being modified at Fort Worth, Texas-based Aspire MRO. Mammoth currently has two 777-200LR freighter conversions in work, with the first of these aircraft having all surround structure installed and nearing completion.

“Our momentum in the build process for the 777-200LRs gives us significant confidence to proceed as planned with the 777-300ER,” stated Brian McCarthy, vice president of marketing and sales for Mammoth. “We are thrilled to have the 777-300ER in work and look forward to advancing this aircraft to certification.”

The 777-300ER aircraft has already been cabin striped and once shored, the full modification process including floor beam replacement and cargo door installation will commence.

The Mammoth 777-300ERMF is a fuel efficient, high-volume, heavy lifting, long-range freighter that is offered in multiple cargo loading system configurations to meet the mission requirements of today’s operators. Mammoth provides a large main deck cargo door that is 16 inches wider than the 777F to allow for a variety of cargo demands and incorporates a thoughtfully designed 4-person supernumerary area for maximum comfort and utility.

## **About Mammoth Freighters LLC**

Mammoth Freighters LLC (Mammoth) was founded in December of 2020 – specifically to design, develop, convert, and support the development of passenger to freighter conversions. The launch type is the Boeing 777 (both the 200 LR and 300 ER variants). The Mammoth converted 777 is one of the most productive and economical 777 long range freighters in the world.

Mammoth, a Boeing Licensee for the Boeing 777, is developing a global production and conversion site network accommodating seven production lines which will include five production lines at Aspire MRO in Ft. Worth, Texas and two at STS Aviation Services UK Limited in Manchester, England with additional conversion capacity planned at other sites in Pacific Asia.

Mammoth is backed by private investment funds managed by Fortress Investment Group LLC and its affiliates. Mammoth is based in Fort Worth, Texas, with engineering offices in Escondido, California, Seattle, Washington and Portland, Oregon.
